Subject: A better plan is needed

Hello,

We are long time residents on the Multnomah Channel, just downstream from the clean up. In reviewing the plan, we are concerned it does not satisfactorily address the pollution problems. The clean-up needs to be more rigorous and create a safe place for our community to fish, swim and enjoy nature. Spending too little is a waste of time and resources.

Sincerely,

(b) (6)

Portland OR 97231
